Efficient

SILENT WALL

SILENT WALL is the wall with double continuous glass that allows you to combine the transparency of glass, high performance mechanical and acoustic.

NEMO

NEMO is a full height partition wall furniture system with an aluminium structure and glass modules connected by junction profiles in transparent polycarbonate. The full height doors, can be sliding, swing, glass and on request panelled doors too. The partition wall is also available free standing.

Zen is the new partitioning system of working spaces, conceived in order to get the best neatness of the partition walls, by using modules that exalt its verticality. Simple shapes and design of the modules (glass or wood), which are characterized by neat and accurate shapes, offering to the environment style and elegance even in the partitions themselves.

TECNA

Tecna is Styloffice's traditional partition wall. Unique in richness of modules and configuration possibilities of the layout, it becomes today even richer in new wooden panels finishing and accessory elements. The intrinsic characteristics are: the modularity, the metallic structure, the best outfit, the integration with other products of the Planet Wall system and above all the possibility to satisfy a wide range of requirements and quality specifications, thanks to double panels with hollow space and fittings.

TECNA OPEN

FACTA ZEN

Filing and space division: Facta is the answer to both these demands with a product having a tidy design, and not any socle, that exalts its verticality. Entirely integrated with the partition walls, it is available either with open containers or with closed ones. This system ensures the total separation of work spaces, thanks to adjusting walls made on demand.
